DATE PREPARED 16 November 1950

1. The airfield west of Stolpmuende (P 55/G 80) was intact and in operation in early August 1950.
2. The field was occupied by 50 aircraft of different types. All planes carried the Polish national insignia. There were no jet aircraft or planes of latest designs.
3. A bombing range  $1\frac{1}{2}$  nautical miles west of the Stolpmuende harbor approach, 2 nautical miles from the shore, was bounded by four small buoys. The aircraft were used for training flights every day when the weather was favorable. Night flying was done once a week. \*
